Contribution Journal Report for Lab XX

Prepared for Prof. Vishwantha Rao, HCC ITAI 1371 Machine Learning
Prepared by FA26_ML_6171_16347 3_ITAI1371 Group
17-10-2026

This report was prepared for Lab 07(L07) for ITAI 1371 Machine Learning, by the group FA26_ML_6171_16347 3_ITAI1371.

Members of the group include the following students:

- Carmen Petronila Esono Afang
- Yuanyuan Kou
- Irene “Alex” Ramos
- Eric Roberson
- Xiomara Torres

Please refer to the ReadMe.MD file at https://github.com/ericjroberson-HOU/ITAI-1371-ML-Labs for intellectual property used in all labs for the course.

Thank you for the opportunity to prepare this reflective journal report. Individual contributions follow.

- **Eric Roberson -** Performed each of the following tasks for this lab:
    1. Created folders on OneDrive for upcoming lab.
    2. Sent an announcement to the team regarding deadline to submit assignment and instructions to update to the Reflection & Contribution Journals, and then synced up with Irene “Alex” Ramos to mention the next assignment on GroupMe.
    3. Downloaded the file .IPYNB file for the lab and parsed it myself for my own learning.
    4. Updated the contribution and reflection journals with my own input.
    5. Took responsibility for converting the files on OneDrive and uploading the .PDF files to GitHub before 11PM on the due date.
    6. Synced up with Irene “Alex” Ramos about submitting the assignments.

-
- Carmen Petronila Esono Afang
    1. Completed Google colab assignment
    2. Communicate with the team
    3. Contributed to analyzing precision, recal, F1 score, and the classification report to better understand the model's performance.

4. Made a reflection and contribution journal

- Yuanyuan Kou

1. Worked through the Titanic model evaluation notebook.
2. Generated a confusion matrix and reviewed the correct and incorrect predictions.
3. Generated a classification report and compared precision, recall, and F1-score.
4. Performed five-fold cross-validation and reviewed the average accuracy.
5. Answered the three knowledge check questions using real-world examples.
6. Connected the evaluation methods to our Netflix movie project.
7. Reviewed the notebook outputs and wrote my personal reflection.

- Irene “Alex” Ramos
  1. Communicated with group on assignment due dates
  2. Completed Google colab assignment
  3. Created a pdf and ipynb file for group to view
  4. Communicated with Eric about when members completed assignments
- Xiomara Torres
  1. Independently ran and executed code on Google Colab Lab 07
  2. Generated and interpreted a confusion matrix to identify correct predictions, false positives and false negatives.
  3. Performed cross-validation obtaining an average accuracy if 78.68%
  4. Contributed to reflection journal.

This concludes our contribution journal for ITAI 1371 ML Lab 07, which was uploaded to GitHub on Friday, 16-Oct-2026.
